

Test Report

The following use cases and features were constructed and tested:

- Registration (Login/Logout)
- Display Database
- Check Database
 - Filtter
 - Query
- Download Database
- Delete Database
- Submit Match Request
- Process Match Request
- Edit Users
 - Add users (script only no UI)

The test cases for the listed use cases and features were carried out and recorded in the respective test case document. They can be found under planning/test_cases.

Bug Reports

ID	Date	Use Case	Description	Outcome	Reviewer
1	4 Dec 2019	All use cases involving Collection class	Circular imports prevented all DB methods from being used	Fixed	Daniel Watson
